

ALUMINIUM POSTS

ALUMINIUM POSTS

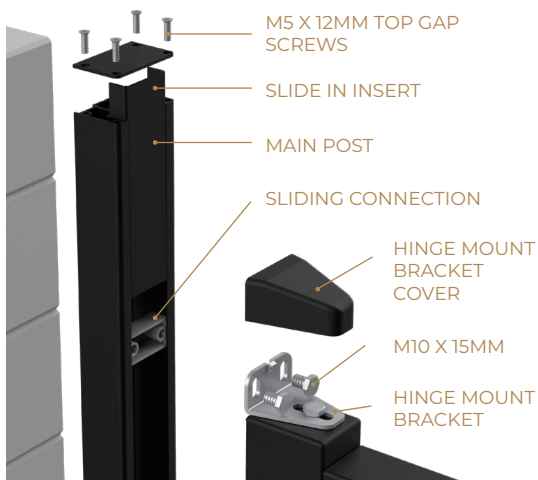

RMGP-

Posts combine strength with a lightweight design - ideal for both residential and commercial applications.

- Constructed from 3.5mm wall aluminium (or 5mm wall thickness for Heavy Duty options)
- Supplied with a pyramid-style post cap as standard
- Features a three-sided welded baseplate for a secure, tight fit against walls
- Versatile installation – can be bolted down with included fixings or buried and concreted into place

100/100/3.5/2400mm	150/150/3.5/3000mm
100/100/3.5/3000mm	150/150/5/2400mm
150/150/3.5/2400mm	150/150/5/3000mm

Colours available: Black / Anthracite Grey / Wood Effect

WALL MOUNTED POSTS

RMGP

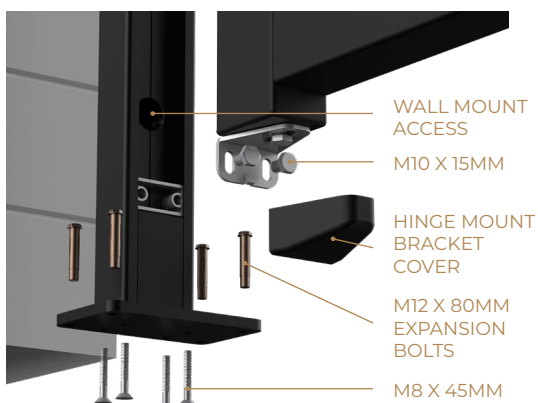

Our wall mounted pedestrian gate posts have been designed with the installer in mind.

These come with easy to fix hinge points built in and are available in either 2000mm or 2400mm lengths.

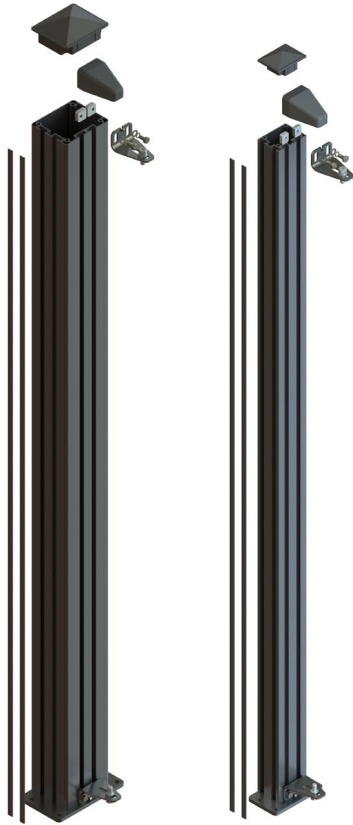

The removable base plate allows for firm fixing to a solid base and the built-in access points allow for multiple wall fixings to make the installation more secure.

The receiver post has the same fixing options and comes with a full-length lock keep which inserts into the post for extra privacy.

Colours available: Black / Anthracite Grey

ALUMINIUM POSTS

ALUMINIUM POSTS - COMING SOON

Our newly designed dual sized posts are the perfect solution for filling awkward spaces and allow more flexibility for installation.

One post = two sizes

Option 1: 75mm/100mm

Option 2: 125mm/100mm

Our unique system allows you to change the base plate and use the size option most suitable for your needs, allowing additional or less space should the need arise during installation or giving an additional size option at point of purchase.

Easy to install hinge channels, no need for drilling into the post.

Removable base plates to change between the two size options. These will be available in the following size and colour options:

75/100/2400mm

75/100/3000mm

125/150/2400mm

150/150/3000mm

Colours available: Black / Anthracite Grey

FULL-LENGTH LOCK KEEP

RMGA-11 to RMGA-22

- Standard with all pedestrian gates.
- Available as a spare part.
- Provides secure locking while enhancing the installation's appearance.
- Offers full privacy, concealing from outlookers.
